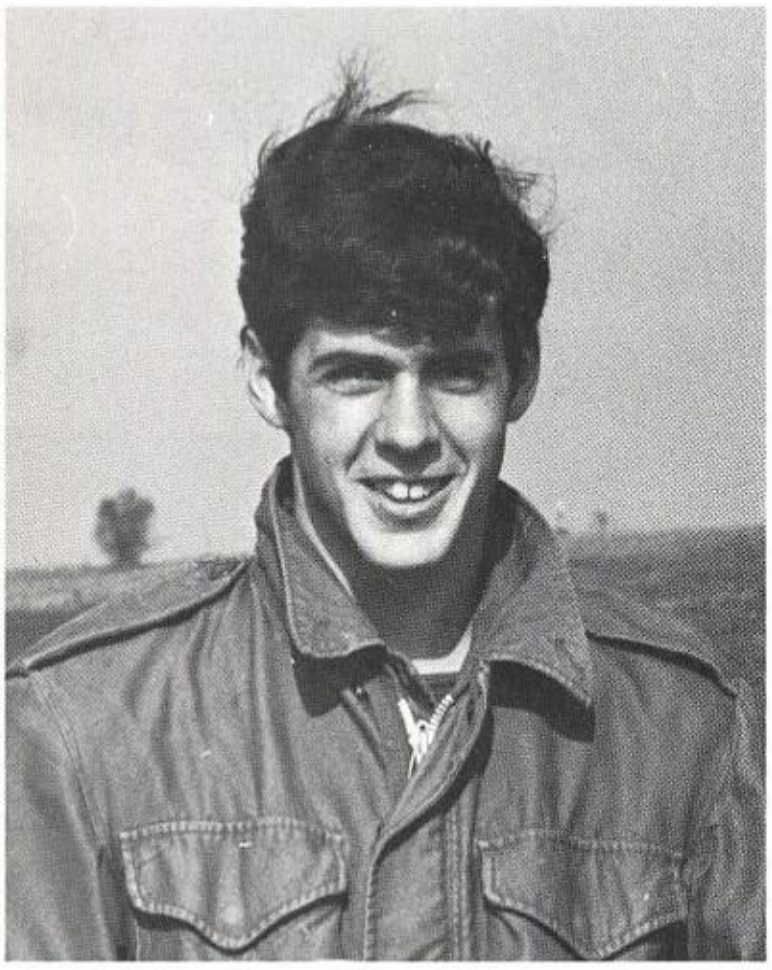
CARTHAGE CENTRAL JUNIOR-SENIOR HIGH SCHOOL

CARTHAGE, NEW YORK

vol. XIV

EDITOR'S NOTE



A very important property of a book is being harmonious from beginning to end. The most useful thread to tie various sections of a yearbook is its theme. This is a device—visual, verbal, and psychological—that defines the point of view or the common reference to which all parts of the yearbook are directed. The editors and myself found that choosing a theme is not an easy task. After much deliberation, we decided that FATE would be the theme of the 1971 Carthadian. Fate could be defined as the power supposed to fix beforehand and control everything that happens. To some people, this means absolutely nothing. To others it means that what happens day by day is not determined by themselves, but by their FATE.

BOARD OF EDUCATION

The school board has the all important and all too often unnoticed task of basically running the school affairs throughout the district. Financial problems, budget, regulations, policy all rest on the shoulders of our school board, and in spite of the long hours as well as the time spent in their regular occupations these elected officials receive no recompense. We would not be truthful in saying we enjoy all the regulations and restrictions, however we do understand that the board doesn't always enjoy having to give them. To the school board we say thank you.
